

## Summary of Fallbrook's Legal Lot Requirements

Protective Covenants, Conditions & Restrictions (CCRs), Design Code, and Planned Unit Development (PUD) requirements have been put in place at Fallbrook for the purpose of enhancing and protecting the value and attractiveness of property and to set the stage for a positive experience for all home owners in the neighborhood. To assist you in becoming familiar with those items required by the covenants and those considered common practice<sup>1</sup>, the chart below has been provided as a quick reference summary of key provisions that apply most directly to your home plan development and review.

<sup>4</sup> See Fallbrook Design Code: Architectural Styles for Residential Construction. Written approval required by Design Review Committee.

The CCRs have a companion document called the Fallbrook Design Code. The design code is intended to provide more specific guidance on design decisions and is meant to pave the review path for home owners and their builders when preparing plans for approval. The design code is organized into four distinct sections indicated below.

- 1. Fallbrook Architectural Styles for Residential Construction.** The design of each home in Fallbrook is required to be influenced by one of four approved residential styles. This section of the design code provides useful guidance on each style including photographs, drawings and a checklist of common features.
- 2. Fallbrook Residential Landscape Guidelines.** This section outlines minimum standards that are applied to each home and provides an extensive plant palette from which to create beautiful landscapes.
- 3. Fallbrook Collection of Color Palettes.** This is an assembly of pre-approved, pre-tested color combinations for the exterior of your home. The collection is an ever-growing assemblage with many of the choices used successfully on completed homes in Fallbrook.
- 4. Fallbrook Residential Fencing Code.** Guidelines for the selection and installation of arbors, gates and yard fences are provided in this section and are illustrated with photos.

To receive a copy of Fallbrook's Covenants for your own review, or any portion of the Design Code, please contact the Fallbrook Sales & Development Office and we'll gladly provide them to you.
